

Records of Slave Births, 1762-1862

On the left is a listing of ninety-five slave births recorded in the Byrne Account Book. Presumably, these slaves were all owned by Matthew and Margaret Kelley Byrne or their descendants. Blank fields indicate that the information was not noted in the account book.

On the right, the projected age at the time of the 1850 and 1860 slave schedules is displayed. This does not necessarily mean that the slaves were still living during this time. The information in the two columns has been computed based on the official Census dates of June 1, 1850 and June 1, 1860, although the actual dates in Bladen County were August 22, 1850 and October 6, 1860.
